

TWENTY-SEVEN KILLED IN MISSOURI WRECK EARLY THIS MORNING

Thirty People Badly Hurt in Collision Near War- rensburg.

Many Children are Among The Dead and Injured.

Misunderstanding of Orders Causes Frightful Ac- cident on the Missouri Pacific--World's Fair Special and Freight Train Clash.

Warrensburg, Mo., Oct. 10.—Twenty-seven people are already dead, others are dying and 35 are injured as the result of a collision between the Missouri World's Fair special and a westbound extra freight one mile east of here, at 4:10 o'clock this morning. The freight was under orders to await the passing of the passenger at Montserrat.

Section one went through, burning the customary red lights, it is said, to indicate that another section was coming, but through some misunderstanding of orders the freight pulled out and ran head on into the passenger.

This train speeding along at 40 miles an hour over a perfect piece of straight track, consisted of three coaches, and a caboose, and every car was filled to the limit. There was no passage car and when the freight engine demolished the passenger locomotive, it plowed over the wreckage and three-fourth of the way through the first coach.

Nearly all of the dead and fatally injured were in this car. As soon as the accident occurred a trainman ran back to Warrensburg and sounded a general alarm.

Doctors all along the road were notified from Warrensburg, and from rural telephones in farmhouses near the wreck.

The relief train went out from Sedalia, 25 miles west, and a wrecker was also dispatched from there.

News of the wreck spread rapidly, and by 7 o'clock it was estimated that 5,000 people were on the scene. The dead and injured, some terribly mutilated, lay on both sides of the track, and the injured were sending the air with their screams and groans.

Two men with their heads crushed beyond recognition lay at one end of one row, and the other end was formed by the corpses of five little boys.

A partial list of the dead follows:
W. J. Dearst and son, Dexter, Kas.
W. H. Allen, Pittsburg, Kas., and two sons, Barrett and Marion.

SPECIAL

Grand Jury to Investigate Sensational Charges at Columbus.

WHO CONFESSED TO THEFT OF \$5,000

Sensation Develops in Town of Woodsfield.

Columbus, O., Oct. 10.—The four common pleas judges of Franklin county this morning decided to call a special grand jury to investigate the charges that politicians have been "fixing" court juries to sell their verdicts to the highest bidder. One affidavit says the Columbus Railway and Light company is the chief employer of one Schlessinger and his alleged confederates, their object being to escape damage verdicts. It is claimed that Schlessinger represented that he controlled the names placed in the jury wheel and the drawing of these names for juries.

Footprints around the office corresponded in size with Devore's feet—Man Confessed to the Officer Sunday.

Woodsfield, O., Oct. 10.—The mystery surrounding the disappearance of a package of money containing \$5,600 from the postoffice here on the night of September 20 has just been cleared up with the arrest and confession of Earl L. Devore, bookkeeper in the First National bank.

The arrest was made through very clever detective work by Government Secret Service men, who came here immediately after the robbery and have been at work on the case continuously ever since.

The express package containing the money was consigned by a New York bank to the First National here. Upon its receipt the postmaster immediately notified Mr. Devore who stated that the time lock on the vault at the bank had been set, and for that reason asked the postmaster to keep the package in his own safe until the following morning.

During the night a panel was removed from the door of the postoffice and the safe was opened by working the combination. The fact of the disappearance of the package was kept quiet for nearly a week. All the circumstances pointed to Devore having guilty knowledge, if he were not the actual thief.

The postmaster had told nobody but him of the receipt of the package. The safe in the office was formerly the property of the First National bank, and Devore was presumed to be familiar with it. Footprints in and about the postoffice building were of unusual size, and Devore's feet are very large. A screw driver found in the postoffice corresponded in general description to a tool owned by the bank, and the bank screw driver was strangely missing.

One of the inspectors sent here by the Government became acquainted with Devore and managed to get into his confidence. The two became fast friends and the inspector shared a room with Devore at the home of his mother, who is a widow.

During the absence of Devore Saturday the inspector opened his trunk and there found the missing package of money. He took from it several bills, closed and locked the trunk, and later in the day Devore confronted with the evidence of his guilt. Devore at first denied, then wilted and confessed that he had personally entered the building and stolen the package. He was sent to his room and returned with \$2,000, which he said was all the money he had.

He was sent back, however, and returned with the balance of the money. He was taken to Cincinnati, and he will be arraigned before a United States Commissioner today. Devore is 27 years of age and unmarried. He has been employed in the bank for three years, and has been advanced from a clerkship to a very responsible position. Several months ago he assumed the management of the Woodsfield Opera House. He was prominent in all the local movements in business and social circles, and was generally esteemed. His arrest and confession have caused a greater sensation than anything that has happened in the community in many years.

TRIAL

Of One of the Buffalo Aldermen Was Begun Monday.

HE RETURNS TO FACE THE MUSIC AT LANCASTER

L. L. Wagner is Now Back to Answer Charge.

Buffalo, Oct. 10.—The trial of the alleged alderman hoodler was moved before Justice Kendrick in supreme court this morning. The court room was packed with politicians, officeholders and citizens. L. L. Wagner was the only indicted alderman for trial. Attorney Ticknor, his counsel, shouted when Wagner's name was called: "We are ready." The cases of Aldermen Harp and Moest and former Alderman Beiser, were put over to the November term. The court is now busy filling the jury box for the trial of six members of which have already been secured.

Lancaster, O., Oct. 10.—Attorney L. L. Wagner, who disappeared from this city about two months ago after being arrested for forgery on the complaint of Mrs. Josephine Miser, returned to Lancaster Sunday and with his attorney, Thomas H. Dolson, appeared in common pleas court to give bond for his appearance before the grand jury.

There were two charges of forgery filed by Mrs. Miser, one of a note for \$500 and one for \$50. The cases were heard before Mayor Rainey, who reserved his decision for three days, and during this interval Wagner disappeared. Judge Reeves fixed his bond at \$500 in each case and the bonds were furnished and signed by Samuel Jonas and Elias Wildermuth, who are relatives of Mrs. Wagner.

As soon as the fact of Wagner's presence in town became known, two new affidavits charging forgery were filed in the mayor's court. Henry Will Peters, of Hocking township, charged Wagner with having uttered and published a forged and fraudulent note for \$1,750 on March 5, last. The note was signed by Charles Harman and was secured by real estate mortgage. George G. List also charges that Wagner, on February 4, 1904, uttered and published a fraudulent and forged promissory note for \$500 signed by Phoebe Young.

Wagner was arrested by Chief Wallace and arraigned before Mayor Rainey in the afternoon. In the case of H. W. Peters the Wildermuths gave their note covering the amount of the alleged forgery and Mr. Peters withdrew the affidavit. Wagner paid the costs. In the List case Wagner valued examination and was bound over in the sum of \$500. Then Attorney Davidson, who appeared for Mr. List, produced another \$500 note bearing the alleged signature of Al Peters, which he declared a forgery, and a second affidavit was filed.

Hotel Fire
Colorado Springs, Colo., Oct. 10.—Fire swept the Norris House this morning and only by the heroic work of the fire department was the Barker House saved. The guests in both hotels were thrown into a wild panic, and many were carried from the building. None, so far as known, are injured. Two smaller buildings adjoining the Norris House, also were destroyed. The loss likely will not exceed \$45,000.

A number of the guests in the hotels were invalids. So rapid was the spread of the flames that they were forced to flee into the cold night air with little clothing. It is feared that several will succumb from shock and exposure.

St. Petersburg, Oct. 10.—The Japanese are failing back on Liao Yang, which the Russians intend to attack.

Russian Losses.
Rome, Oct. 10.—The Giornale do Roma today has a dispatch from St. Petersburg estimating that the Russian casualties at Port Arthur and Liao Tung peninsula and in the fighting up to the evacuation of Liao Yang have amounted to 33,000 killed, wounded and taken prisoner. At Port Arthur on the Liao Tung peninsula the losses, he says, were 15,000; against the first Japanese army 10,000; at Kai Ping Tschiliao and Hai Cheng 6,000; at Liao Yang 12,000. In addition to this he adds 2,000 sailors have been drowned and 49,000 sailors and soldiers have been taken prisoner.

Port Arthur Conditions.
Rome, Oct. 10.—The newspaper Matins today asserts that Port Arthur is in far better condition than the late reports have had it. There is at the Port, says the paper, ample stores to keep the garrison going for twelve months, many of the depots having escaped damage by the Japanese shells. Only a great assault, it is said, can take the fortress, the garrison of which now comprises 23,000 soldiers and 16,000 sailors.

The Japanese Retired.
St. Petersburg, Oct. 10.—Lieut. General Sakharoff, in a dispatch this morning, confirms the press reports of occupation of Benaipuse by the Russians. The Japanese retired after a skirmish.

Japanese Go South.
St. Petersburg, Oct. 10.—The Japanese have retired 45 versts to the south. They have evacuated Toyanchan, Singai, Saimatsi, Fenshuning and Kuandian.

St. Petersburg, Oct. 10.—Kuropatkin's order announcing his determination to take the offensive is supplemented by the news that an offensive movement has already been begun, and that the Japanese line has been broken at Bentsiaputze. The Japanese occupied a front of about 52 miles, stretching from Bentsiaputze on the east through Yental and across the railway to the banks of the Hun river on the west. The Russian force had been moving south in close touch with the Japanese advance since Oct. 4. The Japanese outposts were driven back in a series of skirmishes, and on Oct. 6 the Russians reoccupied the station of Shakh. 15 miles south of Mukden, the railway battalion restoring the bridge across the Shakh river the next day in order to facilitate the advance.

Meanwhile General Mischenko's Cossacks pushed southwestward as far as the Yental mines, defeating the Japanese in a series of warm skirmishes. The most important action, however, occurred on the Japanese right at Bentsiaputze. Here the Japanese held a strong and important position, but it seems they made the inexplicable omission to fortify a commanding hill which was the key to the whole situation. A portion of General Kuropatkin's force made a strong attack on Bentsiaputze, and, taking a leap out of the Japanese book, occupied the hill from the east and flanked the Japanese out of the town, causing a serious loss in a rear guard fight.

General Kuropatkin's communication ordering an advance reads: "The troops of the Manchurian army hitherto have not been numerically strong enough to defeat the Japanese army. The emperor has now assigned for the conflict sufficient forces to insure victory. Difficulty in transporting these over a distance of 1,000 versts are being overcome in a spirit of self-sacrifice and with indomitable energy and skill. If the regiments which already have been sent out prove insufficient, fresh troops will arrive, for the inflexible wish of the emperor that (Continued on page 3.)

ARIZONA MAN OFFERS HIMSELF AS THE PRIZE

Post Office Department is Questioned About It.

AN UNUSUAL GAME OF CHANCE IS PRO- POSED BY THIS WESTERNER WHO WANTS A WIFE.

Washington, D. C., Oct. 10.—An un- usual game of chance is offered by a man in Arizona. He has written the postoffice department, asking if it is against the law for him to put him- self up at a dollar a chance. His let- ter reads: "I wish to ask a question in regard to the postal laws. Would it be against the postal law for me to advertise and raffle myself off? There are so many men in the west- ern states and so few women, I have decided to raffle myself off. I say at 2,500 chances at \$1 per chance and each lady buying a chance will get a number, and the one drawing the lucky number will get me, and the money is to start us up in life. I wish to advertise in the eastern pa- pers, and would have to receive re- sponses through the mails. Please let me know if the laws would object to such a scheme."

The postal laws relating to the subject say it is unlawful to "conduct any lottery, gift enterprise, or scheme for the distribution of money or of any real or personal property by lot, chance or drawing of any kind, or to use the mails for advertising or otherwise forwarding such schemes."

Whether the writer of this query comes under the law, the postoffice department will not attempt to decide.

did and why I did it and leave it to

"I was not seeking revenge. Ed had

The only thing to do was to kill him,
and that I did. I am sorry it had to
be done, and if he had married me it
would have been all right."

Leonard died shortly after the

"THE RAVEN."

The tale of "The Raven" Campbell's production of George C. Hazelton's love play of Edgar Allan Poe's "The Raven" began on Monday morning. This play of Edgar Allan Poe is one of the most important productions of the year and is being looked forward to with great interest in New York, where it will shortly be seen at the

Bijou theatre. "The Raven" has little to do with Poe's poem of that name, Mr. Hazelton deciding that inasmuch as "The Raven" was Poe's best known poem, it would be as well to call a play founded on the poet's life by that name. "The Raven" tells a beautiful story of Poe's love for Virginia Clemm, and while Mr. Hazelton has not departed far from history, he has managed to make the character of Poe one of much gentleness and sympathy. It is said that "The Raven" far outclasses even the same author's "Mistress Nell" in which Henrietta Crosman made her first great success. Prices 25, 50 75 cents and \$1.

A LITTLE OUTCAST.
This well known and popular melodrama which has proved a genuine success in all the large cities during the past season, will be the offering at the Auditorium soon. The wealth of special scenery and mechanical effects that have tended in a great measure to insure its success, will be used in the local production. The management makes a point of presenting the production in its entirety in all towns where "A Little Outcast" has appeared. In their respective roles during the entire life of this popular play. Master Bobbie Young, five years old, and little Edwin Young, eight years old, will be seen as little Paul and Maggie. They are acknowledged to be two of the youngest and brightest children before the public. The entire cast is composed of capable people and a finished and pleasing performance is guaranteed.

WIFE AND BABE

Reported Dying and Forrest Was Waiting for a Telegram Concerning Them When He Fell Dead.

Knoxville, Tenn., Oct. 10.—Death relieved the anxiety of W. V. Forrest, a carpenter of Hendersonville, N. C., but at work in this city, while he was seated in a telegraph office at Hodges, Tenn., near where the recent terrible collision occurred, awaiting a message which would tell him the condition of his wife and child at Hendersonville, reported to be dying.

Forrest received a telegram summoning him to the bedside of his wife and child, and was enroute home, but had stopped off at Hodges to try, if possible to learn the condition of his loved ones.

The operator was busy setting connection, and Forrest seated himself in a chair. Soon the message came, but when the operator spoke to Forrest, he did not answer, and the operator thought he was asleep. He walked to the chair to find that death had relieved the man's agony.

Returned Home for Parental Forgiveness, but Found His Father Dead of a Broken Heart.

Gloucester City, N. J., Oct. 10.—A prodigal returned home Sunday, but instead of the glad welcome and prompt forgiveness, found that his father had died of a broken heart during his absence from home.

The boy is William Barnes the 17 year old son of a well known resident of this city. He left home some weeks ago and all trace of him was lost. He says that he made his way to the south, where he became dissatisfied with himself and longed to atone for his action by returning home. Upon learning that his father was dead the young man broke down and wept bitterly. Later he made his way to the fresh grave in St. Mary's cemetery and fell upon it in an uncontrolled outburst of grief.

The father, Joseph Barnes, died last week of what the physicians declare was really a broken heart.

To Breathe for a While, then Caldwell Manifests Remarkable Mental Traits.

Noblesville, Ind., Oct. 10.—One of the most remarkable cases that has come to the attention of the physicians of Indiana for a long time is that of Harry Caldwell, who has been seriously ill for some time at his home west of this city and for whom a guardian was appointed several days ago. Caldwell is afflicted with some sort of stomach trouble which brings on convulsions, and which in turn is followed by a cataplectic state that lasts from 16 to 17 minutes, during which time he ceases to breathe and is apparently dead to all sense and feeling.

Aside from this peculiar mental condition he has manifested mental traits that are truly remarkable, among them being successful demonstrations of mind reading. Numerous incidents are cited to substantiate this. He has told exactly the age of persons who have visited him, and has told to a penny the amount of money they have in their pockets. He has repeated parts of conversations of persons who have been at his bedside although he is deaf.

A guardian was appointed for him the other day, and while no one is to tell him of his condition, he has learned of the fact. He has told the exact time of the day by simply consulting an imaginary watch.

Fatal Family Row.

Houston, Tex., Oct. 10.—As a result of trouble growing out of family affairs two men were shot to death about three miles from Houston. Hermann Ottman and Ernest Schilling, Sr., are dead; Fred Schilling has a bad wound in the leg, and Ernest Schilling, Jr., is wounded in the foot. Ottman went to the home of the elder Schilling and went into the house. The shooting followed. Ernest Schilling, Sr., was an accidental victim. It is believed, and was killed by Ottman.

General Fight.

Columbia, S. C., Oct. 10.—A general fight occurred at Lucknow, a town about eight miles north of Bishopville, in Lee county, between Harvey Lang, a young white, and several negroes, and as a result Lang and one negro, Ezekiel Aral, are dead. Harvey Lang, who was a clerk in the store of his brother, Ben Lang, went to Ezekiel Aral's to collect 15 cents from Aral's daughter. She denied the account and hot words were passed between Mr. Lang and the negro girl. The row followed soon after.

Rich Hauf of Robbers.

Freeland, Ind., Oct. 10.—After dynamiting the private bank of Young, Hamilton & Co. at this place two robbers fought a running duel with citizens, who were aroused by the force of the explosion, and escaped with a booty estimated at \$20,000.

A New Notion.

I find my method of keeping silver is not known to my friends, and I have never seen it in print, says a correspondent in Good Housekeeping. Fill a paper box with alternate layers of knives, spoons, etc., and common flour perfectly dry. If the silver is bright and dry when put away it may be used at any time without cleaning for a year or two. After this time the flour needs drying off. It saves a great deal of cleaning, as below ware may be packed in the same way. It used frequently wiping with a dry towel is all that is necessary.

Cincinnati Coal Strike.
Cincinnati, O., Oct. 10.—The situation which threatened to close down streetcar traffic in this city because of inability to obtain coal for its engines, owing to the strike of coal workers, was relieved when the Cincinnati Traction company succeeded in putting down a track from one of the coal companies' yards to its Brighton power house. Before the strikers realized what had been done coal was passing from the yard to the different power houses in the traction company's coal cars. A guard armed with a Winchester rifle accompanied each coal-laden car. There was no disturbance. President A. H. Pugh of the local Employers' Association stated that an injunction would be applied for prohibiting the strikers from interfering with the teamsters now at work.

Jury Fixing Charged.
Columbus, O., Oct. 10.—In affidavits filed in the common pleas court in the case of Eliah Munn against the Columbus Railway company, the charge is made that Moses Schlesinger, a local politician, received money from Lancaster (O.) citizens for the alleged purpose of jury fixing. Ex-Attorney General Frank S. Monnett, attorney for Munn, asks the court to grant a new trial in the case named, and in support of his motion he files the affidavits with the object of showing that alleged "jury fixing" is a common practice in the Franklin county courts.

IN ONE DAY

Seventy Thousand Dollars Contributed for Foreign Missions at New York Meeting.

New York, Oct. 10.—"Oh, it is wonderful, very wonderful!" loudly sang the congregation that assembled in the Gospel Tabernacle, No. 692 Eighth avenue, Sunday, eager to pour money into the hands of Rev. A. B. Simpson, president of the Christian Missionary Alliance.

It was indeed wonderful to see \$70,000 contributed in one day to the cause of foreign missions.

Many of the contributors in the afternoon were children, who, as Dr. Simpson explained, had been enabled to give by "keeping away from three C's—candy, chewing gum and card-fare."

One little tot brought his savings bank and emptied his pennies upon the table.

Mr. Simpson explained that the convention just closing is the last of a dozen held in various parts of the United States by the Christian and Missionary Alliance. "We are inter-denominational," he said. "We do not pay our missionaries salaries, we only guarantee their expenses. Last year we received from all sources \$220,000."

COLORED COP

Used His Pistol on a Black Desperado, and is Now Threatened With Lynching.

Washington, C. H., O., Oct. 10.—There has been considerable excitement among the colored population here growing out of a shooting affair which occurred Sunday morning. Brooks Holland, colored, who has done time in the Ohio "Penitentiary," entered Billy Bateman's "Red Onion" saloon and cleaned out the joint. He hurled beer bottles at the dozen occupants of the place, and all made a hasty exit.

Noah Bell, colored policeman, was soon on the spot, and Holland refused to surrender. He and the officer got into the alley and when Bell found he could not take Holland, who is a powerful man, he fired four shots at him at close range. One shot entered his left leg near the groin, breaking the bone. Holland was taken to the police station, and is now at Grant Porter's house.

A number of colored men became enraged at the shooting of Holland, freely indulged in, but no violence was attempted. It is said that a meeting indulged in, but no violence in the case named, and in support of his motion he files the affidavits with the object of showing that alleged "jury fixing" is a common practice in the Franklin county courts.

RAT POISON

Caused Tot's Death and Serious Illness of Another—Found Biscuit While Playing.

Cleveland, O., Oct. 10.—Little Elizabeth Johnson, 5 1/2 years old, daughter of Mr. and Mrs. Elwood Johnson, of No. 10 Sage street, died Sunday from the effects of rat poison she had eaten the day before. Her younger sister, Lucille, at some of the poison also, but not enough to cause her death.

Johnson is janitor at the Friends Bible Training School. The Johnson home is only a little distance from the school. The two little girls were at play in the yard, and in rummaging about in some refuse that had been thrown out, came across a rat biscuit. Childlike the elder of the two tasted it and also gave a taste to her smaller sister.

Not long afterward an older sister found the little ones in the yard and, seeing the box and suspecting what had happened, administered an antidote. A physician was called and took further precautions to prevent serious results. The smaller girl rapidly grew better and was soon out of danger, but Elizabeth continued to grow worse until the end came last night. Both were not attended by excessive pain or convulsions.

How the poison came to be among the refuse is not definitely known. It was stated by a friend of the family that it might have been thrown out of the Friends School during a recent overhauling and cleaning of the building. It was conjectured that it may have been put there to exterminate rats, possibly months or even more ago, and that it only came to light recently. The parents of the children attach no blame to any one. The body of little Elizabeth will be taken to Fairmont, Ind., for burial Tuesday.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommended Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. JAPS

(Continued from Page 1.)

we should vanquish the foe will be inflexibly fulfilled.

"Heretofore the enemy, in operating, has relied on his great forces, and, disposing his armies so as to surround us, has chosen as he deemed fit his time for attack; but now the moment to go to meet the enemy, for which the whole army has been longing, has come, and the time has arrived for us to compel the Japanese to do our will, for the forces of the Manchurian army are strong enough to begin a forward movement. Nevertheless, you must be unceasingly mindful of the victory to be gained over our strong and gallant foe. In addition to numerical strength in all commands, from the lowest to the highest, the firm determination must be to gain victory. Whenever be the sacrifice necessary to this end, bear in mind the importance of victory to Russia; and above all, remember how necessary victory is, the more speedily to relieve our brothers at Port Arthur, who for seven months have heroically maintained the defense of the fortress entrusted to their care."

Tried to Fortify Hill.

Mukden, Oct. 10.—The position at Bentshiaputze was strongly fortified and intended to withstand attack. It is reported that General Kuroki had omitted to fortify one hill, which was the key to the position. The Russians, aware of this omission, made a wide detour eastward and seized the hill with little opposition. The hill, once occupied, exposed the whole Japanese position to a heavy flanking fire. The Russians also turned the Japanese right, and the fortified positions thus becoming untenable, the Japanese were forced to withdraw hurriedly from Bentshiaputze, fighting a rear guard action in which they suffered heavily. The Russian losses throughout were small, although severe opposition had been expected.

Japanese Retiring.

Mukden, Oct. 10.—A crossing of the Taishue river east of Bentshiaputze by Russian cavalry shows that the Japanese are retiring on their position at Liao Yang and in the east of the hills east of Yental, as though they were still desiring a decisive action near Liao Yang. The Japanese after approaching the Hun river appear merely to hold General Kuroki's late battle-ground, where cannon firing upon the Russian cavalry occurred during the morning and afternoon of Oct. 7.

Lockout For Blockade Runners.

Chefoo, Oct. 10.—The increased activity of the Japanese fleet blockading Port Arthur in the stopping of merchantment is due to a lockout which is being kept for three British ships which it is suspected, intend to attempt to enter Port Arthur with tinne meats and vegetables. The British steamer Victoria was stopped near Wei Hai Wei and the above representation was made to her by the Japanese boarding officer.

RHODE ISLAND

Governor Garvin Says Democrats Can Carry the State—Republicans are Alarmed.

Esopus, N. Y., Oct. 10.—Governor L. F. C. Garvin, of Rhode Island, spent the entire morning with Judge Parker in a discussion of political affairs in his state.

"Methods adopted by the Republican campaign committee show that they are worried over the situation," said the governor. "The committee has engaged every hall large enough to conduct a political meeting for every night except Sundays from now until election day.

"If we hold an indoor meeting it must be on Sunday, and we don't like to do that. We may have to resort to tent meetings entirely. I believe the action of the Republicans will react on that party. We have one congressman now and think we will elect the other. We are making a fight to carry the legislature against Senator Aldrich.

MADE A TRADE

Though Mr. Sturdevant Didn't Intend to Do So When He Made the Offer.

"Jewelry L. W. Sturdevant and Henry McCarthy were out auditing Sunday. So was Mr. Herbert, who recently bought the Painter saloon on South Park Place, and thereby hangs a tale.

Messrs. Sturdevant and McCarthy went up Hudson avenue so did Mr. Herbert. As the latter got out of town his machine balked and all of a sudden he drew out his checkbook to make the auto move further. While the owner of the machine was endeavoring to get the motor started Mr. Sturdevant steamed up and jokingly offered to trade machines.

"Give me \$125 and I'll trade machines," remarked Mr. Sturdevant just as he was putting on the power to continue his trip.

Mr. Herbert without waiting a second, replied: "I'll just take that offer," and he drew out his checkbook and wrote a check for \$125 which he passed over to Mr. Sturdevant. Not wanting to back out on his own proposition, Mr. Sturdevant accepted the offer and reluctantly exchanged with Mr. Herbert. The latter started the motor and wished Mr. Sturdevant a pleasant time while getting his machine in working order. Mr. Sturdevant absolutely refuses to tell the time of his return to the city Sunday evening—but he made the machine run, just the same.

REGISTRATION DAYS

Every voter in the city of Newark is required to register this year in order to enable him to cast his ballot this fall. Everybody who is by reason of age, legal residence and other qualification of citizenship, eligible to vote for President, Tuesday, November 8, 1904, MUST REGISTER anew this year, regardless of any and all previous registrations.

The days for registration are as follows:

THURSDAY, OCT. 13. THURSDAY, OCT. 20. FRIDAY, OCT. 28. SATURDAY, OCT. 29.

Our Splendid County Ticket.

The Democratic party in Licking county has nominated one of the best county tickets, in every respect, this year, that it has ever nominated, since the existence of the party. We say this unqualifiedly and without reservation and we mean every word that we say. We repeat, that the Licking county Democratic ticket this fall, is a splendid one, in every respect and without honest criticism from any honest standpoint.

In proof of this assertion, we ask merely a fair and honest investigation of the candidates upon our county ticket, man by man; and an honest and impartial comparison of them, man by man, with the candidate of the Republican party, for character and for ability. We challenge this comparison of our county candidates with those of the opposite party; we court it, and we defy anyone to produce anything, either against the character or the ability of the men that constitute the Democratic county ticket this fall.

In all that constitutes character and qualification which entitle men to public confidence the Democratic ticket is vastly superior to that of the Republican ticket.

Our county candidates are men who are well-known and favorably known, throughout the county. Most of them have been in the public eye for years and they wear the stamp of the public approval. They have been tried, in various important public capacities and they have not been found wanting. They have the confidence of the various communities in which they

reside and of the general public, which is well evidenced by their nomination, for the various important offices for which they are candidates in a popular election, by the people.

Each man upon our county ticket is thoroughly qualified for the position to which he aspires; and if elected—which he undoubtedly will be—he will fulfill the duties of his office faithfully and well and to the general satisfaction of the public. Moreover, our county ticket, alike with our state and national ticket, represents our political views and principles—represents the political principles we love and whose success we believe to be for the best good of the country.

We repeat, our Democratic county ticket is an unusually good one this year. It is composed of representative Democrats, of conceded ability and integrity. It deserves and it will receive the united and enthusiastic support of the united Democracy of the county.

Roosevelt reads imperialism and war preparation. Parker for a strict construction of the constitution, limiting the powers of the general government, and a return to the ideals of Government which prevailed in the days of Thomas Jefferson. That is the difference—Parker and constitutionalism, or Roosevelt and imperialism. It is war or peace. There are always opportunities for war in the hands of a grasping and ambitious President.

Reports from New York are to the effect that the tide is running constantly stronger in favor of the Democracy. The nomination of Judge Herrick for governor has been the means of adding much strength to the whole Democratic ticket. His election is now being strongly claimed, and there is increasing confidence in Democratic circles that the electoral votes of the State will be given to Parker and Davis. A list of 10,000 Republicans who propose to support the Democratic National ticket is in possession of the committee which has been canvassing the State. In addition to this there are said to be many thousands of Republicans who refuse to say what they are going to do, many of whom, it is believed, intend to vote for Parker. With the Democrats of the State united and harmonious, this situation is believed to presage a complete Democratic victory next month in the State.

Bryan and Parker.

(Pittsburg Post.)

Mr. Bryan is doing good service for the Democratic cause in the West, and his arguments strike home to the people. The sincerity and earnestness of the man are nowhere doubted, and he has a tact and wide-reaching capacity in presenting the arguments involved in this election which have great force because of this well-known earnestness and sincerity. For instance, in his comments on Judge Parker's letter of acceptance, he advises the Democratic committee to send out both his letter and Mr. Roosevelt's in one pamphlet, as the reading of the two will convince anyone that Judge Parker is the better to trust with the responsibilities of chief executive. That is the common judgment when the men and their antecedents are considered by the brains and intelligence of the country, especially in Judge Parker's discussion of the tariff and his condemnation of militarism, which is emphatic and statesmanlike. Mr. Bryan makes these points in sustaining Judge Parker's letter:

He accepts the President's challenge and announces that he will, if elected, revoke the famous pension order and then recommend the enactment of an old age pension law, and in answer to the President's demand that he name a specific expenditure that is too large he calls attention to the increase in the expenses of the war department from \$34,000,000 in 1896 to \$115,000,000 in 1904. He answers the President's argument against the employment of the common law against trusts by citing the case of the Western Union Telegraph Company vs. the Call Publishing Company, reported in 181 United States Reports, page 52. While he devotes considerable space to the tariff question he evidently regards imperialism as the paramount issue, connected as it is with the large army and with the President's reckless disregard for the tenets of executive authority.

The Republican National committee, with the assistance of Chairman Cortelyou's magnificent campaign fund, has brought Mr. Watson, the Populist candidate, into the field to answer Judge Parker and assail the Democratic party, but Mr. Bryan meets all the points that Watson raises and does it with characteristic power and argumentative force.

LABOR FAVORS JUDGE PARKER

Montana Workmen, 23,000, Strong Declare for Democratic Candidate—Expect Unionists to Follow Example, Which Will Control Three Western States With 11 Electoral Votes.

New York, Oct. 10.—Former Governor A. E. Spriggs, of Montana, arrived at Democratic National headquarters with a document in his pocket that assures to Parker and Davis 11 electoral votes that had not yet been counted. As a result of this action of the labor party in Montana declaring for Parker, Nevada and Colorado will do likewise, according to ex-Governor Spriggs, and before the campaign progresses much further all the states where the labor vote is of any size will be affected by the Montana decision.

The labor vote of Montana is 23,000, which is one-third of the entire vote. In Nevada there are 14,000 labor votes, and in Colorado 25,000. The declaration of the Montana laborers, which is considered very important by the Democratic leaders, is as follows:

"In order that the position of the Montana Labor party may not be misunderstood in their endorsement of Judge Parker for President of the United States, we desire to make known the following facts:

"The Montana Labor party is made up exclusively of members of organized labor in this State, and its sole purpose is to advance, through united political action, the cause of those who toil for a living. When the question of endorsing a candidate for President of the United States came up for consideration by this committee it was recognized that here were several candidates for the office, who are strong advocates of the rights of labor, but we realized that the present battle is between President Roosevelt and Judge Parker, and that therefore, if the wage earners of Montana were to cast a vote that would count, it was necessary that they should support one of these two leading candidates, if the record was such that we could do so consistently.

"In other words, it appeared to be the part of good policy to help to elect the man who was most friendly to our cause. We are all familiar with the record of President Roosevelt during the last few years, and we were far from being satisfied with the general trend of his policy towards militarism, and his numerous official actions relating to labor, that showed anything but a friendly disposition toward our members.

"As far as Judge Parker was concerned we had little information concerning the stand he had taken upon questions vital to our welfare but after thoroughly investigating the various decisions he had rendered affecting labor while he was a member of the New York Court of Appeals, this committee found that he had at all times placed a liberal construction upon the law and that (contrary to many of the courts of the land, he had upheld the constitutional rights of the citizen to quit work when he desired.

"We found further, that Judge Parker, although in the minority, had upheld in the court of appeals the constitutionality of the eight-hour law governing municipal work. Believing thoroughly that the Democratic candidate is more in sympathy with the cause of labor, and better understands the hardships against which we have to contend, our party, after a searching investigation into his record, determined that it was to the best interest of the wage earners of Montana that he should be elected, rather than that the present occupant of the White House should be retained there and for that reason we have endorsed the regular Democratic presidential electors and placed their names on our State ticket, and we shall earnestly work during this campaign to bring about the election of Parker and Davis, and we call upon all laboring men to assist us to this desired end."

UNION MOVEMENT

Against Republican Party in Pennsylvania and Other Eastern States.

Pittsburg, Pa., Oct. 10.—Union labor has issued a powerful appeal to all workers who believe in fair conditions for the laboring class, and for all men who love honest play, to come out against the Republican ticket this fall, because the leaders of that party, from the highest in the country down to the leaders of the State machine have openly turned down all appeals from the union labor of the State to make the new capitol building at Harrisburg a union structure, and to insist on the employment of only union labor on its building.

The appeal has not stopped at the limits of Pennsylvania, but is to be made an appeal to every one of the States that are recognized as doubtful States in the union.

Labor Committee Finds Large Lot Without Union Label.

Indianapolis, Oct. 10.—A committee of labor union representatives found a big lot of Roosevelt buttons here without the union label. They were made by a non-union concern in New York, and 10,000 were sent by the National committee.

The state committee has ordered union buttons and the others will be returned.

All Parker buttons were found with the union label on.

THE TEN LIVING QUESTIONS

(From the New York World, July 30, 1904.)

The real, living, burning questions of the campaign are:

I.—Rough Rider or Judge

Shall the people of the United States have for the next four years a Personal or a Constitutional Government—the sovereignty of a party dictator or the sovereignty of the people—a Rough Rider or a Judge for Chief Magistrate?

II.—Reform the Tariff.

Shall the tariff never be revised except with the consent and under the direction of its beneficiaries—by "the friends of its abuses, its extortions and its discriminations"—or shall it be revised in a judicial spirit by "the friends of the masses and for the common weal"?

III.—Curb the Trusts.

Shall monopolies like the Beef Trust, controlling universal necessities of life, continue to receive the protection of a sheltering tariff, and enjoy still longer indulgence in the non-enforcement of anti-trust laws by reason of their enormous contributions to party campaign funds and their potential influence with party leaders?

IV.—The Abuse of Power.

Shall the action of the President in ridding himself of the one successful trust prosecutor in order to placate the corporations—in making his former private secretary and head of the Department of Commerce a campaign-fund solicitor from the very corporations he was appointed to "diligently investigate"—in appointing a railroad corporation official Secretary of the Navy, and a political agent of the Southern Pacific Railway to the head of the department to supervise and curb corporations (all to aid his own campaign)—shall this "surrender of the Rough Rider" be approved by the people?

V.—No Corporation Rule.

Shall the rule of corrupt corporations in politics and their controlling influence in government be further enlarged and confirmed by continuing in power a party closely allied with them by the granting of special privileges in the tariff, by the election of corporation agents to Congress and to State offices, and through the reconstruction of the cabinet to meet their views?

VI.—Stop the Extravagance.

Shall we continue a policy of reckless extravagance, as evidenced by the expenditure of more than \$2,500,000,000 during the last four years, or shall we return to a reasonable economy?

VII.—Check the Corruption.

Shall corruption bred of too long a lease of power as instanced in the half-disclosed postal frauds, in the

land-office scandals, in the pension abuses, in the sale of offices and negotiation of corrupt public contracts by Senators Dietrich and Burton, and in the ascendancy and Executive recognition of notorious corruptions and professional spooks, be condoned and continued?

VIII.—No "Big Stick" Bluster

Shall the attitude of the United States toward foreign nations be that of a bully with a "big stick" and a chip on his shoulder, or shall we return to the policy of Washington and Jefferson—"Peace and friendship with all nations, entangling alliances with none"—minding our own business and expecting other nations to do the same?

IX.—What Will the Filipinos do to Us?

Shall we continue the malevolent effect upon ourselves of so-called "benevolent assimilation" in the Philippines until it is too late to withdraw from that deplorable and un-American adventure in Asiatic colonialism—which becomes all the more dangerous the more we impose upon them the veneer of our civilization—and until the hybrid and forever alien races of those islands shall be incorporated into our body politic to cast the die in our national conventions as the delegate from Hawaii did at Kansas City in 1900; to participate in our elections, to sit in our Congress, and eventually to help to govern those who now by force impose upon them government without consent and taxation without representation?

X.—"Let Us Have Peace."

Shall we, forty years after the end of the war and after a complete reconciliation of the once hostile States, tear asunder by a revival of the sectional issue the bonds of fraternity and concord—and this when the people of the South have just secured the nomination of a conservative and constitutional Democrat for President, and have given repeated instances of the strongest national and patriotic feeling?

Everybody's liable to itching piles. Rich and poor, old and young—terrible the torture they suffer. Only one sure cure. Doan's Ointment. Absolutely safe; can't fail.

Society Girl Drowns at Virginia Beach and Other Bathers Have a Close Call.

Norfolk, Va., Oct. 10.—Miss Bessie Wilson of Clarksburg, W. Va., niece of the late William L. Wilson, former postmaster general and afterward president of Washington and Lee university, was drowned while bathing at Virginia Beach. Her body was recovered. Miss Mary Wilson of Charles town, W. Va., daughter of the former postmaster general; Miss Mary M. Simpson of Buchanan, Va.; Miss Eliza Dillion of Indian Rock, Va.; and Miss Louise Latimer of Washington, sister of Lieutenant Julian L. Latimer, United States navy, were rescued by United States lifesavers and are in a serious condition at the Princess Anne hotel, but will recover. The party went into the surf accompanied by E. Stormont, a resident of the beach. He was teaching them to float, and before he was aware of it several of the young women had drifted beyond their depth.

FAIR CONVERT

Weighted 300 Pounds, and the Little Preacher Came Near Drowning Her During Baptism.

Philadelphia, Pa., Oct. 10.—Unable to bring a 300 pound woman convert to the surface, Bishop Crowley, who is a small man, called for help during a baptism in the Delaware river, opposite Camden.

A score of men, mindful of their good clothes, plunged into the water to the rescue.

Mrs. Jennie McLain, of Coatesville, Pa., was the convert. The Bishop easily lowered her beneath the surface of the river, but encountered difficulty in raising her to her feet.

Mrs. McLain was carried ashore by the rescuing party. She had swallowed considerable water, but she soon recovered.

DRUG SWINDLE

New York Police are Convinced That They Have Broken Up a Gigantic Scheme.

New York, Oct. 10.—The New York police are convinced that they have broken up a gigantic drug swindle by the arrest of several men in this city. The arrests were made on information that well known proprietary medicines were being counterfeited and sold as genuine, and the authorities assert the investigation is not complete. Drugs seized at the apartment of Howard E. Wooten, it is said, are valued at \$10,000. Wooten is one of the men under arrest. The others are Simeon B. Minden, Manville Thomas, Charles S. Horn, Charles F. Rislow and Walter S. Rokey. It is asserted by local detectives that slips were found in the places raided giving the names of 5,000 druggists throughout the country to whom dangerous mixtures made in New York were sold.

BRANDED

As Practical Failures are Theological Schools of the Country by President Harper.

Chicago, Oct. 10.—Not a single religious problem of any importance has been solved by the theological seminaries of the United States in 50 years. The churches are too much occupied with denominational questions to direct their attention to them. The solution of these problems must come from our great universities, which are realizing that they must furnish the religious training in the future.

President Harper of the University of Chicago, in addressing the students and faculty on "The University and Its Relation to Religious Education set forth in these words his opinion of the status of religious institutions.

After branding the theological seminaries of the country as failures in true religious education and lamenting the extreme denominationalism in the churches Dr. Harper offered a curriculum and plans for a university which should embody his ideals of religious training, saying:

"The work of the university which undertakes this will include provisions for lectures, correspondence and reading courses for the students. Biblical history and literature, religion, ethics, philosophy and science also would be included in the curriculum.

"The study will not be restricted to theory. The university will constitute itself a laboratory in which practical work will be done. Our university settlement furnishes a good example of this."

Weeds grow so rankly along the Guayaquil and Quito railway, at the foot of the Andes in 62 miles of jungle that watering tanks filled with a strong solution of arsenic and nitre have to be sent along the track every ten days in the rainy season to spray and so kill the vegetation on each side of the track.

A reception was tendered the distinguished guests by the local Masons.

HIS PIPE,

Still Burning, Was Clutched in the Suicide's Teeth—He Hanged Himself.

Chicago, Ill., Oct. 10.—John F. Eckburg hanged himself at his home in Evanston, and when the body was discovered the suicide held a pipe between his teeth. The pipe was still lighted and Eckburg had apparently continued smoking as long as he could draw his breath.

He was an inveterate smoker and all the indications are that he went about the matter of self destruction methodically and determined to get what relief he might out of a disagreeable affair. There was no evidence of a struggle or that Eckburg had suffered when he expired.

He was a native of Sweden and had been out of work. He told some friends that there was no room for him in the world.

WHEELS SLIPPED

Street Car Ran Against B. & O. Engine on East Main Street, but Nobody Was Hurt.

An accident occurred on the city electric car line on East Main street Monday morning. Motor car No. 33, in charge of Motorman Kinsey and Conductor Win. Moore, was going east with a number of passengers on board. As the car drew near the East Main street railroad crossing the motorman noticed a B. & O. engine approaching, and immediately threw on the brakes. As the tracks were covered with wet dead leaves, making them very slippery, the brakes failed to do the work, and the car ran against the rear step on the tank of the engine. The motor car was derailed and the front damaged. Nobody was injured.

DISHONEST

Methods of Sam Parks Were Adopted. It is Charged, by His Successor, Tried for Extortion.

New York, Oct. 10.—Philip Weinsinger will be brought before Judge Newburger in general sessions today for trial on a charge of extortion. He was president of the Building Trades Alliance, and is accused of using his power over union workmen to fill his own pocket. In a late position stood his predecessor, Samuel Parks, until he was sent to state prison, there to die. In November last Parks walked into Sing Sing where he lived only six months. Even then Weinsinger had stepped into his shoes. It is charged that in December, with Parks only a few weeks in a cell, Weinsinger forced an employer to buy his influence.

With two indictments for extortion against Weinsinger he will be tried on the complaint of George J. Esch, a master plumber of No. 29 Hancock place, not a member of the Building Trades Employers' Association. Esch had the contract for plumbing work on the Chatsworth, a building at Riverside Drive and Seventy-second street, the owners of which, the Johnson-Kahn company, belonged to the Employers' Association.

It was on Esch's complaint that Weinsinger was arrested August 17. Esch swore that Weinsinger had taken the plumbers of his local organization he was president, from the work on the Chatsworth, and that Weinsinger had told him that if he would not return this money he would be in the hospital in December.

Esch says the contract would be for \$2,700 to Weinsinger. He said \$1,400 of this on December 31, he says, and for the balance he gave seven notes, the first for \$500 and the others for \$250 each, totaling \$2,700.

The second note Weinsinger with Charles Tucker, a carpenter of No. 18 University street, when Weinsinger was president of the Building Trades Employers' Association, ordered Tucker to build a building for him. Tucker says he had to pay the money to Weinsinger to get the contract.

The last of the money was paid to Tucker on October 10, and was sent to a year's salary.

He was born in 1847, and his wife, who is now 60 years old, has been in the aggregate for 10 months for emphysema and other ailments.

The first meeting of the Language Association of Denison for this year was held in Rectal Hall on Saturday evening at 7 o'clock. Considering the other interests which had attracted a number interested in the Association, out of town, there was a good audience to receive Prof. Williams, who addressed the meeting on "The Evolution of the English Drama." Beginning with the ancient Greek and Roman drama, from which the later drama was more or less imitated, Prof. Williams traced the English drama from the old early mystery and morality plays through the comedies and farces down to the production of that one world favored dramatist who ever stands alone in his glory—Shakespeare.

The address was most instructive, entertaining and interesting, and all in attendance felt that a most profitable evening had been spent, and that the first meeting of the Language Association was an undoubted success.

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost impossible to avoid a cold, and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so thoroughly good that no one should hesitate about it in preference to any other. It is for sale by all druggists.

All who pay their subscription in advance will be entitled to make estimates on the Licking county vote \$500 in prizes. See announcement in another column.

ITCHING ECZEMA

In July, 1883, I began to break out with eczema on my head, legs and arms, and began treatment with local doctors, but did not get much relief. They said the disease had become chronic. I then quit them and tried various ointments and soaps for another two years, but as soon as cold weather came I was as bad off as ever, so I finally decided to let medicine alone, and for twelve or thirteen years did nothing towards curing the Eczema, except bathing. This seemed to do about as much good as anything I had tried.

During the time I lost about one-half of my hair, I began S. S. S. doubtless of a cure, because the disease had run along, but soon discovered your medicine was doing me good, and continued to take it. I used seven bottles, when I was completely cured, not having a single spot on my body, which before was almost completely covered. F. C. NORFOLK, 1017 Hackberry St., Ottumwa, Ia.

The head, feet and hands are usually the parts affected, though the disease appears on other parts of the body. While external applications allay the itching and burning temporarily, it is the acids thrown off by the blood that cause the irritation and eruptions upon the skin. The acids must be neutralized and the system cleansed of all humors and poisons before the cure is permanent. S. S. S. is guaranteed entirely free of Potash, Arsenic and other minerals. Book on the skin and its diseases sent free. Medical advice furnished free.

IN A BARN

A. J. BARRETT FOUND DEAD ON MONDAY MORNING.

Owing to Condition of the Body the Coroner is Carefully Investigating the Case.

A. J. Barrett, aged about 42, who is well known on the streets of Newark, was found dead at an early hour Monday morning in a barn in the rear of Conrad's grocery, which is owned by Charles Smucker.

Barrett was employed by John Messer to assist him in cleaning out saloons each morning, and was allowed to sleep in the barn, which Messer rents. Monday morning Barrett did not show up for work, and when Messer went to awaken him, found that he was dead.

The deceased has been an inmate of the Gallipolis Asylum for Epileptics, and has on several occasions since coming to Newark, had fits.

It is supposed he died in one some time during Sunday night.

When Messer went into the barn he found Barrett practically standing on his head in a pool of blood, beside his bed. Coroner C. F. Legge who viewed the remains, is inclined to believe that the deceased was the victim of foul play as the left side of the face is one mass of bruises. The body was taken to Criss Brothers, on East Main street, where it was prepared for burial.

Coroner Legge has located the mother of the deceased, near Butler, Ohio, and the funeral arrangements will depend upon her instructions.

Barrett was employed on the Showman farm, west of Newark, a year or so ago, and was then known to be an epileptic.

Whether or not he came to his death by foul play or from wounds inflicted while in an epileptic fit is now being investigated by the coroner.

Two weeks free tuition at Bliss College.

CHICKEN

HAD A HEAD THAT REFUSED TO LEAVE THE BODY.

Traveling Man Tells a Good One That Came to His Notice on Buckeye Lake Line.

F. W. McGovern, a traveler for undertaking supplies, related a good story Monday morning at Bowers & Pringle's undertaking establishment.

He was coming from Columbus to Newark one day last week on an interurban car and between Elma and Hebron the car attained a high speed.

Some distance in front there was a flock of chickens which scattered upon the approach of the car. Every one got clear of the track except one rooster which was hit by the fender.

At the next stop one of the natives took the rooster from the fender with the remark: "I'll have chicken for supper tonight." The rooster was still alive and he thought he would cut its head off. As the car started he put the chicken's neck on the rail and four wheels passed over, but the head was not cut off. The car after proceeding a short distance had to back up for some reason, and McGovern states that a pony knife was brought into use. His query is "How old was that rooster?"

WHALER

Brings News of Safety of Captain Amundsen's Arctic Expedition Starting in 1903.

Dundee, Scotland, Oct. 10.—A whaler returning from Davis strait brings news of the safety of Captain Amundsen's Arctic expedition, which left Christiania June 17, 1903. Captain Amundsen's expedition has been described as having for its purpose a task of the highest importance in the domain of terrestrial magnetism. The plan was to go first to King William Land, on the east coast of Greenland, and thence proceed for Bering strait. If the plan should be carried out it would take the expedition almost directly across the north pole. The vessel on which the expedition sailed was the Gjoa, 46 tons, yacht rigged, and having an auxiliary petroleum engine, and she was equipped for four years' stay in the Arctic regions.

Six Railway Men Suffocated in a Tunnel—The Coal Train Broke in Two.

Port Huron, Mich., Oct. 10.—A. S. Begg, Port Huron, superintendent of the terminal; Engineer John Coleman, Conductor J. B. Simpson, Conductor T. D. Tinsley, Brakeman Thomas McGrath and Brakeman D. A. A coal train broke in two while passing through the tunnel and three of the train crew were suffocated while part of the train stalled in the tunnel. The engineer lost his life when he returned and endeavored to push the stalled cars back to safety, and two other rescuers perished in vain attempts to penetrate the gaseous atmosphere of the great tube.

VILE LIQUOR

REPUTED CAUSE OF DEATH OF 15 PEOPLE

Within Eight Days in the Neighborhood of Stryker Farms, New York City.

New York, Oct. 10.—Fifteen deaths within eight days in the neighborhood known as Stryker's Farms, on the West Side, have started an investigation by the police and coroner's office. Coroner Scholer says the deaths were caused by "pure liquors." All the victims knew one another, and a curious circumstance is that the men had attended their friends' funerals until all were dead. Of the 15 deaths in the eight days four were in one house and two each in three others. All were reported to the coroner as "sudden deaths."

The treasurer of the United States on May 6, 1903, redeemed two half-cent pieces. This is the first time in the history of the country that any such coins have been presented for redemption.

This year's lavender crop in England is one of the most abundant in years.

HANNA'S AUTO

Ran Over and Crushed a Little Boy at Cleveland Monday—The Lad May Recover.

Cleveland, O., Oct. 10.—A thirteen year old school boy, Carl Trenn, whose home is at 60 Nora street, was run down and crushed beneath Dan R. Hanna's automobile at Hoyt avenue and St. Clair street today.

Mrs. Hanna and a little daughter were in the automobile with a chauffeur who was driving. The boy was hurt internally.
